A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with
U.S. SAVINGS BONDS

"The kingdom of heaven is at hand. Heal the sick, cleanse the lepers, raise the dead, cast out devils: freely ye have received, freely give." These words from Matthew (ch. 10) will be used as the Golden Text at Christian Science churches next Sunday.

The question, "Are Sin, Disease, and Death Real?" will be explored in passage from the Bible and the Christian Science textbook, including this statement: "God is not the author of mortal discords. Therefore we accept the conclusion that discords have only a fabulous existence, are mortal beliefs which divine Truth and Love destroy" (Science and Health with Key to the Scriptures by Mary Baker Eddy, p. 231).

Let Your Money Earn 4 1/2% Payable Semi-Annual

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

RARDIN RECOUNTS ROAD BUILDING PROJECTS

While chatting with a group of Glades business men yesterday, County Commissioner Paul Rardin recounted several of the road improvement items either under way or scheduled to be put under contract in the immediate future.

Most recent of the road projects put under contract is that of rebuilding Larrimore road from the Pure Oil Station in Pahokee to the Railroad on the present 'old road bed. This new construction will join SR15 in Pahokee with SR15A at the railroad crossing.

The new road will have curb, gutter and sidewalks and the bid price of the Rubin concern was \$269,285.00. Construction work will start as soon as the State Road Department in Tallahassee can process all of the bids, award the contract to Rubin and issue a work order. This red-tape process will take in the neighborhood of 60 days, Com. Rardin said.

Another road recently put under contract is that of building Curlee Road near the sugar mill in Belle Glade. This road for a new mile and a half, will run from State Road 15 (the old Belle Glade road) at the hump backed culvert near the prison farm to a spot one half mile north of Glades Sugar House.

Curlee road when built will intersect West Sugar House Road a mile from the highway and intersect East Sugar House Road a mile and a quarter from the highway. With another Rardin-built road—Airport Road—on the south side of Glades Sugar house the new 15-million dollar sugar facility is to be surrounded on four sides by Rardin-built roads.

Another road, the commissioner pointed out, that is to be of prime importance to the Pahokee area is Rardin Avenue running from Bacom Point Road through the Negro section to an intersection with SR 15 (the old Belle Glade road) at Fifth street in Pahokee.

Rardin Avenue will be of modern construction and contract will soon be let for this additional facility, Com. Rardin said. There

FILLING STATION Site for lease on Muck City Road between Streamling Quarters and Connors Highway. Ideal location for service station and small restaurant. For full particulars get in touch with Paul Rardin, Canal Point, Fla., or phone 924-2661 between 8 a. m. and 5 p. m.

will be curb, gutter and sidewalks on this new piece of construction, he pointed out. A completely new drainage set-up will be available in the Negro section when the new road is constructed.

Duda Road at Belle Glade is to be improved to status of a farm to market road in order that it can carry adequately the millions and millions of packages of fresh produce coming out over it annually. This construction will run south from SR80 for a distance of a mile and a half.

Highly important in the Belle Glade packing house area is the coming rebuilding of Ice Plant (NW Ave L) Road from the old Belle Glade road across to the new Belle Glade road in Chosen for a distance of 1½ miles.

A ditch alongside the present county road, Mr. Rardin said, will be put in underground pipes, and the newly improved facility will have curb and gutter with sidewalks. The new Ice Plant Road—now known as an extension of Airport Road—will be as nearly as possible a duplicate of Avenue E in Belle Glade which was visualized and built under the direction of Commissioner Rardin a few years ago.

Material to build these new roads is to be pumped out of Lake Okeechobee and will be stockpiled on the Pahokee Airport. There will be a total of 500,000 yards of material pumped out of the lake and stockpiled. The contract has already been awarded to the Hendry Corporation of Tampa in the amount of \$484,000.00.
